

Diana 3 y.o

She suffers infantile cerebral paralysis

Needs 665 000 rur or € \$ equivalent

By march 28th, 2014

My dear English-speaking friends! I know that you are good and kind people who sometimes want to do something for others but do not know how. This is the chance, this little 3 y.o. cutie needs our help. She suffers infantile cerebral paralysis and can not neither walk, nor talk, nor even sit. Her parents live in a relatively small city in Russia (they are friends of my friend, so trusted and reliable) and only the father works, because the mother carries the girl and brings her for massages and treatment. They need around 13800 Eur by the end of March for a treatment after which the girl Diana can realize her dreams - he can walk and talk. PLEASE let's help her. If each of us send a little amount of money we can help all together. All medical documents are attached in another posts in Russian, I can translate them for you if needed.

More information about Diana, a course of medical treatment and etc you can find here (in russian)
